PATIENT PREPARATION AND INSTRUCTIONS

NOTES:

1. A valid health card must be shown at every visit.
2. A signed requisition by a registered physician is mandatory for all exams.
3. If you would like to cancel/ change your appointment, please notify our office at least 24 hours prior to your scheduled time.

For additional locations across Ontario, visit www.myhealthcentre.ca

NUCLEAR CARDIOLOGY

1. Patient may have a light breakfast/lunch (e.g. toast, jam, fruit, juice, water) and then nothing to eat 1 hour prior to the test.
2. Discontinue all caffeine products 24 hours prior to the test. This includes all tea, coffee, decaffeinated tea/coffee, pop, chocolate, Tylenol 2 & 3 and/or medications containing caffeine.
3. Insulin-dependent diabetics should take their insulin and a light meal 1 hour prior to the test.
4. Wear loose fitting clothing (e.g. T-shirt, track pants, athletic shoes, etc.).
5. Bring a list of all current prescription medications and check with your physician regarding the discontinuation of any heart medications (e.g. Beta-Blockers like Metoprolol or Atenolol, as well as Calcium Channel Blockers like Diltiazem or Verapamil).
6. Do not take erectile dysfunction medications (e.g. Viagra, Cialis, Levitra, etc.) 48 hours prior to the test.

MYOCARDIAL PERFUSION IMAGING consists of 2 parts: 1. Rest Study - takes approximately 1.5 - 2 hours and consists of an injection followed by imaging.
2. Stress Study - takes approximately 2 - 2.5 hours and consists of a stress test, injection and imaging.

ECHOCARDIOGRAPHY

A cool sensation may be felt on the skin from the gel on the transducer, and a slight pressure of the transducer may be felt on your chest.

The appointment will take approximately 45 minutes.
