MyHealth is now WELL Health Medical Centres. We're the same team with a new name, providing the highest standard of accredited patient care! All our services require a scheduled appointment.

Please provide 24 hours' notice if you need to reschedule your appointment to avoid a no-show fee. For the latest clinic information, or to chat live and book your appointment online, please visit **MyHealthCentre.ca/Locations**

PET/CT SCAN

- The evening before your scan, do not consume sugary drinks or foods, such as juice, soda, rice, pasta, white bread or baked goods.
- For the full day prior to your scan, choose higher protein foods, such as nuts, seeds, meat, poultry, fish, eggs, cheese, beans and vegetables.
- Discontinue vitamins, supplements and caffeine the evening before your scan. You may take your regular medications, unless they contain caffeine.
- Do not exercise for 12 hours prior to your scan and minimize your physical activity for the full day prior to your scan.
- Do not eat or drink anything other than plain water for 6 hours prior to your scan.
- Wear loose, comfortable layers of clothing that are free of metal buttons and zippers.

SPECIAL INSTRUCTIONS FOR DIABETIC PATIENTS:

- These instructions apply to both insulin-dependent and non-insulin dependent patients.
- In order to acquire a good PET/CT scan for you, we REQUIRE your blood sugar level to be under or equal to 10.0 mmol/L (180.0 mg/dL). It is ideal to have a blood sugar level between 4.0 7.0 mmol/L for our test.
- DO NOT take your Insulin or diabetic medications (metformin, glyburide, glucophage, januvia, etc.) 4 hours prior to your appointment.
- DO NOT eat or drink anything 6 hours of your appointment. Drinking plain water is encouraged for your test.
- You will be requested to provide to 2 recent glucose readings when confirming your appointment.
- If you have a morning appointment, it is suggested that you fast overnight to keep your blood sugar level down the next morning.
- If you have trouble controlling your blood sugar level or have blood sugar readings typically above 10.0 mmol/L, please notify the clinic.

Ga-68 PSMA ILLUCIX PET/CT SCAN INSTRUCTIONS:

- No dietary restrictions prior to scan.
- Drink water the morning of the exam: (2) 16 oz glasses of water 2 hours prior to the exam. Stay hydrated.
- No vigorous exercise 24 hours prior to your appointment.
- Wear comfortable clothes, with no buckles or metal.
- If you are claustrophobic, please consult with your physician and notify the PET/CT technologist upon your arrival. If you take or anticipate needing any medication, please bring the medication with you as out facility doesn't stock medications for this purpose.
- Due to radioactivity used during the exam, we discourage visitors younger than 5 years old.
- Important Note: This exam requires a special, time-sensitive medication ordered specifically for you. Please arrive on time as the medication may not be useable if you are late.
- Please allow 2 hours for your entire appointment.
